## **Construction begins Monday on US 2 east of Devil's Lake**

Construction will begin on Monday, May 24, on the eastbound and westbound lanes of US Hwy. 2. The 2-mile project begins 4 miles east of Devil's Lake and consists of installing 4 turn lanes.

During construction:

- Expect short term delays around 5 to 15 minutes
- Speeds reduced to 40 mph through the work area
- A width restriction of 14 feet in lane closure will be in effect
- Flaggers will be present.

This project is expected to end at the end of June.

Motorists are encouraged to slow down and allow extra distance between their vehicles and the vehicles in front of them, use extra caution, and obey posted signs.
